

Principal's Message

Assalamu-Alaikum Wahramatullahi Wabarkatuh

Alhamdulillah, Term Two ended in great excitement with our annual Ramadan activities which included beautiful Ramadan Displays in classrooms and in the multi-purpose hall, a Ramadan Lecture, the Community Iftaar Dinner, a Ramadan Assembly and the Eid Prayer with more than 1000 attending.

Students and staff devoted tremendous effort to make the Ramadan Displays very special and meaningful. Once again, there were many outstanding displays once again this year and a special thank you to all staff and students for producing the amazing artwork. In addition to the displays, the Ramadan Assembly was also very special once again this year with many memorable performances. A heartfelt thank you to the Islamic Studies staff in both Primary School and High School for their hard work and dedication in preparing all the performances within a short period of time, Jazaak-Allahu Khairan. Many proud parents watched their children perform. We have great harmony and terrific teamwork which enabled our College to produce the high standard of work and achievements that were evident.

It is hard to believe that there are only two terms remaining this year. I look forward to another busy and productive term, Insha-Allah. I hope you enjoyed viewing some of the creative art work produced by our students that are included in this issue of the newsletter. Jazaak-Allahu Khairan for your ongoing duas and support.

Dr Popie Hossain Rhaman

Upcoming Events

- Parent-Teacher Meeting (KK-Y6, 26 July 2017)
- Parent-Teacher Meeting (Y11-Y12, 27 July 2017)
- Australian Maths Competition (27 July 2017)
- UNSW ICAS English (1 August 2017)

In This Issue

- LIC Community Iftaar 2017
- Ramadan Assembly
- Ramadan Display
- Science and Chemistry
- Learning and Growing in Kindergarten Orange
- Up We Go! Year 4 Yellow!

L.I.C. Community Iftaar 2017

5th Annual Lecture & Iftaar

Our Parents and Friends Association (P&F) is second to none. Once again, more than 1000 meals were prepared by the P&F and volunteers for LIC's Community Iftaar Dinner. It was wonderful to witness more than a thousand people including dignitaries, parents, neighbours and community members break their fast together in the multi-purpose hall. The Iftaar followed the Annual Ramadan Lecture presented by Sheikh Yahya Ibrahim. It was a wonderful evening and we look forward to making this community event even better in 2018, Insha-Allah.

CHEMISTRY SCIENCE

Science is well loved by my Year 9V and Year 9P students. This semester, students learnt about human bodies and diseases. They were all excited to dissect some animal brains and learnt more about the functions of different organs of their bodies.

As for Chemistry, it's all about exploring exciting experiments and completing tedious assignments. The Year 11 students are experiencing a wake-up 'knock' as the year progresses while the Year 12 students are struggling to cope with the upcoming end of year, all important ATAR examinations.

I wish all Year 12 students every success for their future endeavours!

Learning and Growing in Kindy Orange

Semester One has come to a close, but not without its ups and downs. The students in Kindy Orange have overcome their initial phobias and are feeling quite comfortable at school. They have demonstrated fantastic progress in all areas and have accomplished a number of goals.

Kindergarten is an exciting time for children. This new chapter sets the tone for a child's future. They are encouraged to learn new skills that will help them to succeed and confidently navigate the school day routines. They are learning to get along with their peers, making new friends and are becoming more independent. This in turn supports their growth and development. It is very rewarding for us as teachers to witness this transition. They have been provided with the opportunity to learn and grow in an environment that is tailored to meet their social and academic needs.

Term 2 has been a whirlwind of activity. The children were eager to participate in these fun, hands-on activities. Along with the children's accomplishments, all parents have been wonderful. We would like to extend our heartfelt appreciation and gratitude to all the parents and families for your continuous support in all our activities and program.

Kindy Orange Staff

Term 2 Highlights

Our theme “All About Me” and “My Feelings”. “Milk Split” – Our experiment with colours.
We are unique and special in our own way.

Literacy – We are learning to write our names. In Phonics – we are identifying letter names, sounds and formation

Numeracy – Numbers 0 -10. Concepts based on measurement – tall / short, heavy / light.

Fun with Colours

Our excursion to "Jungle Gym"

Up We Go! Year 4 Yellow!

Year 4 Yellow

We had our *Exploratory Learning* to Kings Park. It was hands-on and practical with everyone being involved in their learning. The students did some investigation about plants' adaptations, art and fun games to consolidate their knowledge on plant's parts. Also, in Science we observed the growth of beans sprouting.

Assalamu 'Alaikum and 'Eid Mubarak to everybody from us in Year 4 Yellow. We have had a busy and adventurous Semester 1. The students have all worked very hard and very enthusiastically together to achieve fantastic work.

Busy recording science investigation

The food chain' show and tell

"We are almost done..."

"We're first to complete. Yeayy!"

In Term 1, we learned about the continent of Africa and its various cultures. We also learned about the Spice Trade in History. As a highlight we had a tasting session of different African foods – A special thanks to all the parents who were able to support us.

In Maths, we learned about fractions, different method of divisions, elapsed time, probability, etc. In addition to books we used various games to help students in consolidating the Maths concept learnt. 'I have, who has?' is one of our favourite games.

Playing 'I have, who has'

As part of our school-wide events, we enjoyed Harmony Day. It was as exciting as always with the children proudly displaying their cultural clothing. There was also a school "Safe City" incursion from the City of Gosnells which was very educational.

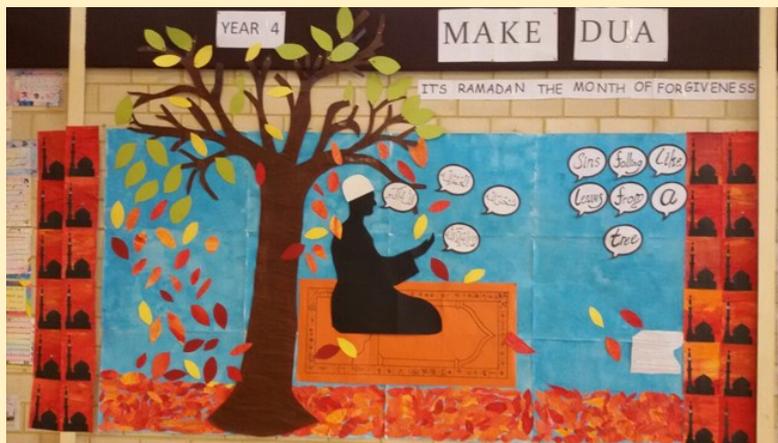

Using dice and counters to play maths game

We also learned the names and the occasions to have these foods.

Hands-on spice

Students participating in the 'Safe City' incursion

The children have worked hard to complete the Ramadan Display in time for the annual school Iftar. Our theme for this year is 'Make Dua'.

We all in Year 4 Yellow look forward to a similarly exciting second half of 2017.
